

Record of Revision

Revision Number	Issue Date	Comments
03	December 6, 2024	2025 Price Change. Updated manufacture date eligibility for repair and trade-in options.
03A	January 21, 2025	Corrects table header name in attachment 1 to be List Price.

December 6, 2024

To our Valued Customer,

Gables will continue to offer the LCD Module Trade-In and Repair Program through 2025 with the two options, the trade-in option, and the repair option. The new revision will take effect on January 1, 2025.

The Trade-In option under this program is offered to provide our Customers with Factory New LCD Modules to support LCD Module replacement at a reduced price. The Repair option is a cost-effective solution for LCD Modules that are up to five years old.

The following are the elements of the LCD Module Trade-In and Repair Program:

- 1) LCD Module effectivity, eligibility and pricing is contained in Attachment 1.
- 2) Effectivity, eligibility, and pricing do not apply for LCD Display Modules that are tampered with, modified by third parties or damaged beyond economical repair.
- 3) Gables must receive the LCD Module from the customer to be evaluated and processed under the LCD Module Trade-In and Repair Program. Non-eligible LCD Modules sent to Gables can be returned at customer expense.
- 4) Customer will submit a Repair Order (RO) with the appropriate Trade-In or Repair charges contained in Attachment 1. The RO must indicate that the returned LCD Module is to be processed via the LCD Module Trade-In and Repair Program.
- 5) LCD Modules eligible and accepted by Gables for the Trade-In option will be replaced with Factory New LCD Modules. Received modules will be destroyed upon closing and shipping the Repair Order (RO) to the Customer.
- 6) For LCD Modules eligible for the Repair option, Gables will repair and return the same LCD Module received from Customer. Gables will make every effort to meet a turnaround time of ten (10) business days.
- 7) If a failed LCD Module was installed during the original manufacture of the control panel and the control panel is still covered by warranty, the LCD Display Module will be, at Gables' discretion, repaired or traded-in free of charge.
- 8) A non-ADSB LCD Module is not eligible for Trade-In for an ADSB LCD Module. LCD glass cannot be purchased for purposes of repairing LCD Display Modules.
- 9) Warranty information regarding LCD Module Repair option and Trade-In option is included in Attachment 1.

10) The terms contained herein are subject to change at any time without prior notice.

Gables Engineering's goal is to offer industry-leading customer support. If you have any questions regarding this change, please don't hesitate to contact us at support@gableseng.com.

Attachment 1

Trade-In and Repair Program LCD Module Eligibility and Price

LCD Trade-In and Repair Eligibility	LIST Price	Trade-In Price	Repair Price
